Ms. D'Andre,

Per your request, attached are the results from month end ad hoc of the 100 cases in the Montana CSED with the highest arrears balances. Best luck and wishes in your nationwide-wide search of this information from other states.

Regards,

Chad R. Dexter

Subject: RE: Child Support information request

Hello Ms. D'Andre,

At this time, I can confirm that the open CSED caseload is 37,657 (ending Mar. '17).

With regards to the top 100 cases with the highest balance owing, please be advised that this information is not presently readily available to the agency. Producing a list like this will likely require some level of system programming. If you could confirm the specific pieces of data that you are seeking from these cases, I can inquire into the costs associated with producing this. In addition, I can also then check to see what our public records laws will allow to guard against inappropriately releasing protected information. May I ask for what purpose you are seeking this information from the Montana CSED? Knowing this will assist in better researching your request.

CSED does not charge interest on unpaid support. Therefore, in response to your 3rd question, I am confident that these presently unidentified cases would represent only the support due.

Regards,

Chad R. Dexter
